

RIDA®UNITY Assay Portfolio

Your solution for fully automatic PCR diagnostics

Efficient: Up to 6 different assays can be individually combined in a single run

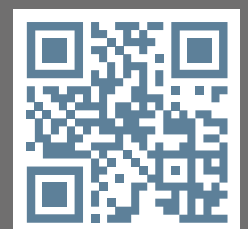

Intuitive: All reagents are ready to use

Universal: Use of the comprehensive RIDA®UNITY Internal Control Kit for quality assurance in all runs

Information on RIDA®UNITY assay portfolio

Benefits to you

The RIDA®UNITY system offers you a flexible, intuitive, and universal solution for a fully automatic workflow in molecular diagnostics.

Efficient:

A universal amplification protocol makes possible the use of 6 different assays in parallel in one run with 96 reactions or 288 reactions per day

Intuitive:

Fully automatic processing with the RIDA®UNITY supports a simple, intuitive, and flexible workflow

Universal:

The RIDA®UNITY Internal Control Kit supports quality assurance through a comprehensive process control for all RIDA®UNITY assay kits

RIDA®UNITY Internal Control Kit, Art. No. UN0010

Product overview

Product	Art. No.
Gastrointestinal infections	
RIDA®UNITY Norovirus I & II	UN1415
RIDA®UNITY Bacterial Stool Panel	UN2405
RIDA®UNITY EHEC/EPEC	UN2205
RIDA®UNITY C. difficile*	UN0835
RIDA®UNITY Parasitic Stool Panel II	UN1725
RIDA®UNITY Viral Stool Panel II	UN1325
RIDA®UNITY Viral Stool Panel IV*	UN1345
Respiratory infections	
RIDA®UNITY Flu*	UN0505
RIDA®UNITY Parainfluenza	UN5805
RIDA®UNITY Flu & SARS-CoV-2*	UN6825
RIDA®UNITY RSV & hMPV	UN5905
RIDA®UNITY Bordetella*	UN2505
RIDA®UNITY CAP Bac*	UN2705
Universal process control	
RIDA®UNITY Internal Control Kit	UN0010
